

Beginner's Resources

This book tracks the resources from:

<https://forum.sailfishos.org/t/beginner-resource-collection> and

<https://github.com/molangit/awesome-sailfishos/blob/master/README.md>

Currently just Markdown dumps which need a bunch of work to make them useful.

Beginner's Resource Collection

Let's use this topic to collect some resources a beginner might find useful.

Keep this user-centric, there's other categories for development and other discussions.

This is a wiki, so if you, dear reader, have something to add or edit, go ahead (you will need a certain [forum trust level](<https://blog.discourse.org/2018/06/understanding-discourse-trust-levels/>) though)!
